

1" Guidance Strip

G5001

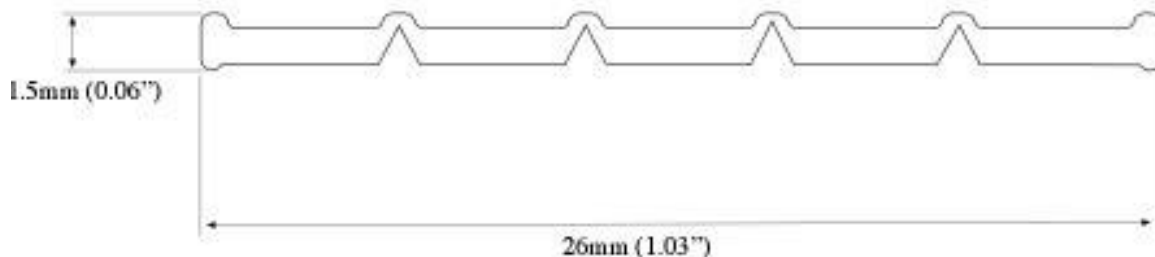

Glow-in-the-dark guidance strip is designed for installation onto step edges, for floor demarcation lines and around exit door frames.

The **ecoglo®** G5001 guidance strip meets the New York City Local Law 26 RS 6-1 requirements for photoluminescent markings (MEA Acceptance Report # 243-05-M).

Working just as well in the light as it does in the dark, the G5001 guidance strip is designed to reduce falls and enhance egress speed in all egress situations.

BENEFITS	TECHNICAL
Exceeds New York City RS 6-1 Brightness Rating requirements. ecoglo® G5001 BR 41/10/7	Passes RS 6-1 Illuminance Test ISO 17398 (NYC minimum BR 30/8/5)
Highly durable and built for permanent installation inside or outside.	Note RS 6-1 UV testing will complete late 2005 (Has already passed relevant Weatherometer (2000 hour ASTM G155) and Salt Spray (ASTM B117) tests.)
Easy, permanent installation	Uses recommended polyurethane adhesive. Contact your distributor for installation instructions.
Easy clean - no other maintenance required.	Passes RS 6-1 cleaning test - ASTM D 4828 – RESULT 10 (no residual soiling or staining – highest possible score, minimum requirement = 5).
Does not burn	Passes RS 6-1 flame spread test – ASTM D635
Is non-toxic	Passes RS 6-1 toxicity test – Bombardier SMP800-C
Is not radioactive	Passes RS 6-1 radioactivity tests ASTM D3648

The above specifications do not apply if the products have been used in detrimental environment or other conditions; in a manner likely to cause excessive wear and tear; or have not been charged.
